

[JÉRÔME BERTRAND](#) : Exclusive video of behind the scenes of our collaboration with fashion designer Simon Bourdain from [Exo Latex](#)!

Over the span of a couple years we have worked with professional models such as [Honey Benjamin](#), [Xin](#) and [Veronica Rocket](#) to bring life to this collection of fine latex garments. Hundreds of photos were taken and many published in magazines. However, seeing the motion of these gorgeous models exhibiting such refined latex work, we decided it needed a bit of an editorial frame to show just how exquisite these playful photoshoots came about.

We invite you to delve into our common passion of fashion and image making and hope you enjoy the show!

We will be coming up with more content in the near future so feel free to subscribe to this channel and stay up to date.
